100 years of advanced thinking

A passion for technology, many years of experience and a strong innovative spirit have been incorporated into the manufacture of outstanding grinding solutions.

Pioneer in the field of cut-off grinding — We created the first fibre-reinforced cut-off discs in Europe and invented the super-thin technology, which is today's global market standard for high quality cut-off discs.

Technology leader in precision grinding — We are one of the world's leading providers of high-precision grinding tools in the automotive, turbine and tooling industry as well as in various other precision industries.

Market leader in the steel industry — We are the most sought-after producer of the world's biggest cut-off wheels with diameters of up to 2,000 mm for cutting hot semi-finished steel products.

Leading solutions for construction professionals — Our innovative system solutions and the patented diamond technology (TGD®) set new standards in performance and comfort for applications in the construction industry.

Diamond tools for grinding of automotive glass — We were the first company to produce diamond tools for grinding automotive glass at 40 m/min and successfully established an industry-changing concept for edge grinding in the market.

Creator of innovative wire sawing technology — We strongly pursued the development of the wire sawing technology for applications in the stone and construction industry which is still the industry reference today.

Family-run since 1919

TYROLIT is managed by an executive board of three members – two of whom are fifth generation Swarovski family members. The roots of tradition run deep and enable us to combine family values and internationality.

We strive to impress internal and external target groups and to cultivate fair, long-lasting cooperation based on partnership. To this end, we continually optimise the quality of our products and services, and constantly adapt our business processes to the changing demands of the market.

Our global supply chain management ensures on-time delivery of our products to customers around the world. Investments in research and development, in training our employees and in technological improvements are integral parts of our corporate culture.

The sustainable handling of resources, the guaranty of a safe working environment and compliance with legal requirements have contributed to the company's positive development since 1919.

Executive Board

Dr. Christoph Swarovski has been a member of the Executive Board since 2002. He acts as spokesperson of the Board and is Head of Finance & Administration.

Andreas Buchbauer has been a member of the Executive Board since 2003 and is Head of Technology.

Arno Pichler has been a member of the Executive Board since 2017 and is Head of the Metal Industries division.
